Welcome to Vars!

Once again this season, our priority is to offer you the best of the mountains by combining modernity, comfort and respect for our exceptional environment.

The resort is continuing its dynamic development with the complete renovation of the ski lift network, so that you can enjoy skiing to the full while reducing the time spent on the lifts.

In the same spirit of improving your experience, new facilities are being created: the new Tourist Office/Ski Lift Office is now open to provide you with better support, while a crèche/nursery is being finalised and a future multi-purpose hall will soon enrich the life of the village and holidaymakers.

Everyone at the resort is working hard to offer you an authentic and welcoming stay, combining mountain traditions with innovations designed for your comfort.

Whether you come with family or friends, enjoy our carefully maintained slopes, our varied activities, our festive events and the friendly atmosphere for which Vars is renowned.

We hope that your stay will leave you with unforgettable memories and the desire to return very soon.
Have a great stay in Vars!

WORLD RECORD ATTEMPT AND WORLD SPEED SKIING CHAMPIONSHIPS

The concept is simple, but dizzying: go as fast as possible. An extraordinary event on the legendary Chabrières slope, bringing together the best KLists of the moment.

With a 98% gradient at the start and its dizzying layout, it is the only slope in the world where records can be set and remains the absolute benchmark for all speed skiers.

In 2023, Varsinc Simon Billy made history by becoming the fastest man in the world on skis, reaching a record speed of 255.50 km/h. Once again this year, all eyes will be on Vars to see if this record can be broken.

These speed skiers want only one thing: to try to break the world speed skiing record.

The weather window will determine the race schedule: follow the event on our social media channels and vars.com for the exact schedule..

GLISS & MIX

3TH TO THE
6TH APRIL 2026

EVENTS

Gliss & Mix is celebrating its 8th anniversary!

An unmissable end-of-season event, Gliss & Mix returns to Vars over the Easter weekend to combine sport, music and solidarity. Organised by the Marseille-based association Espoir au Sommet, the event aims to support the fight against cancer by funding sports therapy programmes. Since its creation in 2017, nearly €250,000 has already been raised and donated.

On the 'Gliss' side, skiing will be celebrated with a giant slalom and numerous activities throughout the weekend.

On the 'Mix' side, the snow front will once again be transformed into a giant dance floor with a DJ set by a renowned artist (to be announced shortly). He will follow in the footsteps of Kavinsky, Ofenbach, The Avener, Feder, Mosimann and Synapson, who have already rocked Vars at an altitude of 1,850 metres, facing the Eyssina peaks.

GOOD TO KNOW

Throughout the week, there will be lots of entertainment on the theme of the tropics!

The Christmas fairies are also preparing an Escape Game, a Flashmob, a Christmas Bingo evening and a big fairy hunt throughout the resort.

ON THE WAY TO CHRISTMAS EVE

On the 24th, a lantern workshop will be offered before the big Christmas Eve celebration: Father Christmas will arrive in a snow groomer, handing out smiles, chocolate coins and gifts before admiring the great torchlight descent and Christmas fireworks.

On the 25th, there will be lots of entertainment around a market, gospel singing and a photo booth to make this the best day of the year.

MAKE A WISH!

The atmosphere will build to a crescendo on the big night of 31st December, when the snow front at Vars les Claux will be transformed into a veritable open-air stage.

NEW YEAR'S EVE

For New Year's Eve, it's time for magic: an après-ski DJ set, light show, torchlight descent, snow groomer ballet and sparkling fireworks will light up the mountain and accompany your transition into 2026. YOUR ADVENTURE

A high-angle, wide shot of a snowy mountain landscape. The foreground shows a steep, snow-covered slope with three skiers descending. The skiers are wearing colorful gear: one in red pants and a blue jacket, another in dark clothing, and a third in purple pants. The middle ground features a large, snow-laden evergreen tree. The background is a vast, open snowy expanse with scattered smaller trees under a bright, overcast sky.
