VALLÉE DE VARS

LAND OF / ADVENTURE

The Col de Vars (2109m) is one of 17 mountain passes covered by the Route des Grandes Alpes between Lake Geneva and the Mediterranean. A prime location for cyclists, motorbikers and anyone who loves beautiful mountain roads.

MOTORBIKE TOUR WITH VARS AS YOUR BASE

These road trips bring you wonderful winding roads and unforgettable views: hit the road from Vars and embrace your freedom. Countless legendary mountain passes are just a stone's throw from the resort. Izoard, Bonette or the loop around Serre-Ponçon Lake are bound to make for a ride to remember.

CYCLING ELDORADO

Almost 20km long with an average elevation of 6% from Guillestre, Col de Vars is your chance to climb to the symbolic altitude of 2000m, making it a real challenge for sports enthusiasts staying in Vars or the Hautes-Alpes.

It lies bang in the middle of 2 valleys (Durance and Ubaye) and two départements (Hautes-Alpes and Alpes de Haute Provence). Tour de France cyclists have ridden on it 36 times since the first crossing in 1922.

LAND OF HERITAGE

Take a trip back in time: dive into the history of Vars as you explore its villages.

The locals have sculpted the land over the ages and embraced the mountain's bounty: a leisurely lifestyle, unspoilt nature, architecture and heritage that have stood the test of time, leaving a precious legacy for today's visitors.

HERITAGE SIGHTS

A fine summer's day is the perfect excuse for a stroll through the villages. Be curious and get a sense of what life was like in days gone by: Vars wasn't always the resort it is today. It's a valley with real history behind it.

People say that you had to be born here to stay here: living in the high mountains meant a life of hard labour in a harsh climate and farm chores. But living here also meant having values; men and women devoted to their land who have passed the legacy on from one generation to the next.

Look up and you'll see **sundials** with meaningful mottos such as «le temps fait passer l'amour, l'amour fait passer le temps» (time makes love pass, love makes time pass).

Visit the **washhouses** which were once hives of life where people came to do their laundry.

Make like the locals and quench your thirst at the **public fountains**, where people used to come to chat and fetch their water.

The village **oven** in Sainte-Catherine, the **protestant church** and Saint-Marcellin **Church** bear witness to the "local" history and are part of our rich heritage.

HOW TO GET HERE

Free shuttle service: from the Vars villages.

VAL D'ESCREINS / VARS GREEN LUNG

One of the highlights of your stay in Vars is the Val d'Escreins nature reserve, also known as our "slice of Canada in Vars."

With its 25km² of wilderness, lush forests, refreshing streams and thriving biodiversity, the valley is one of the first municipal reserves in France to have been protected since 1994.

It ranges in altitude from 1600m to 3385m at its peak, Pic de la Font Sancte.

A WONDERLAND

This magical area is a haven of peace, the perfect place for nature lovers, hikers, trail runners, orienteering enthusiasts and walkers of all kinds.

BIG ON LEGACY...

The people that have lived in the valley have made it what it is, just take the ruins of the ancient village of Basse-Rua suited to mountain life. Locals realised how perfect the land was for breeding livestock and wheat growing and began building here. The houses were built using locally available materials, with larch wood cladding and walls of limestone and pebbles from the Rif Bel.

However, the village was mysteriously burnt down and abandoned in 1916, leaving behind a few ruins, including the chapel.

Despite the times leaving their mark on its history, the «Vars green lung» is still a must-see sight! The council founded the Val d'Escreins reserve in 1964 to protect its nature and avoid excessive urban planning.

AND LEGENDS!

Imagine yourself a few centuries ago in the middle of the village of Basse Rua. You'll come across this goatherd and her herd. Walk upstream along the Rif Bel through a leafy forest, following in her footsteps to the mountain pastures where the grass was perfect for her herd but the water was sorely lacking. The goatherd had noticed that one pretty white goat didn't seem thirsty, so she followed it to a wall with a trickle of water that it wanted to drink.

A miracle happened: the wall burst open with a mighty blast and the spring gushed out. It was a miracle!

Since then, there has never been a lack of water and the spring has been called the sacred fountain: "Font Sancte".

There's an oratory where the goatherd has been laid to rest and you can visit it on a signposted footpath on one of the most popular walks in the valley.

OUT / AND ABOUT!

Discover a larger-than-life playground. Whether you're looking for fun, sport or time out, Val d'Escreins is your place to switch off completely.

ORIENTEERING TRAILS

There are permanent trails in Vars for you to have a go at orienteering all season long in Val d'Escreins. It's fun, sporty, anyone can do it and it gets you out in the great outdoors.

You will find your maps, provided for free at the Val welcome chalet, with valuable advice for setting off in search of the markers.

On the agenda: 3 courses of different levels to find the wooden markers and stamp your map with the punch: will you be nature's Sherlock Holmes? Prepare for analysis, observation and lots of fun!

TRAIL ROUTES

There are 3 signposted routes for all levels so you can see every side of Val d'Escreins:

- **Val'vert:** Distance: 3937km, Ascent: 121m
- **Val'bleu:** Distance: 9218km, Ascent: 319m
- **Val'rouge:** Distance: 9125km, Ascent: 788m

DID YOU KNOW?

This is a **zero waste area** everyone is responsible for keeping it that way.

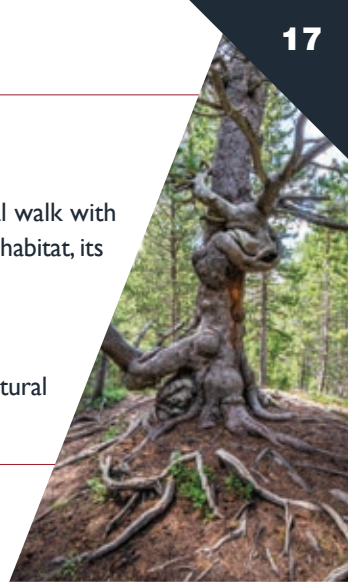

Everyone must take their litter to recycle at the recycling facilities in the Vars villages.
